**MAKE CHECKS PAYABLE TO:** PUTNAM COUNTY FIRE DEPARTMENT

**\*\*\*\*AVAILABLE TRAINING OPTIONS\*\*\*\***

**Introduction to Fire and Emergency Services – Train the Trainer- FF050** (16 Hours) This course provides an overview and introduction to new members of the fire and emergency service and is designed to be completed before students respond to an actual incident. Key areas include a focus on the department mission, organization and daily operations. Topics include personal protective equipment (PPE) including self-contained breathing apparatus, firefighter health and safety; and incident command. This course is designed to be a starting point for training in emergency services; attendees are strongly urged to continue their training and education before responding to any incident.

**LPG Emergencies/Fire Streams - FF117 A and B** (15 Hours) This course is designed to familiarize the student with the specialized strategy and tactics required to safely handle flammable gas emergencies. Key areas of the course include flammable gas characteristics and hazards, strategy & tactics for fire and non-fire events, fire attack, and “live” firefighting scenarios. (Please note the A and B selection as two separate course options.)

**Tanker Operations - FF-113** (15 Hours) The course covers the Insurance Service Office (ISO) grading schedule and requirements for tanker shuttle water supply, water supply calculations, basic tanker operations, and water shuttling. Both classroom and practical hands-on training are incorporated in the course.

**SCBA Using It - FF-114** (15 Hours) This course is designed to provide fire department personnel with the basic knowledge and skills to safely utilize fire service self-contained breathing apparatus (SCBA). The course subject areas include understanding hazardous atmospheres and the need for SCBA, types of SCBA, donning, basic use, return to service, and inspection/basic maintenance.

**Aerial Apparatus Familiarization - FF165** (15 Hours) This course is designed to provide generic training on aerial apparatus operations and their tactical use. The program is designed so that the instructor can incorporate specific training elements on the host department's type of aerial apparatus. In order to do this, the host department will be required to furnish in advance the operations manual and related technical materials on the specific aerial device.

**Firefighter Survival “Get out Alive” - FF175** (15 Hours) This course is designed to prepare firefighters for the dangers that are present on the modern day fireground. Students learn and demonstrate proven survival skills that have prevented firefighters in the past from dying when unexpected events occur. Topics include SCBA emergencies, escapes and confidence, entanglement emergencies, wall breeches, and disorientation emergencies. Additional topics include anchors and knots, rope escape techniques, hose slide, straddle, hang and drop. This course is geared towards keeping the firefighter from becoming trapped in a situation where they themselves would require rescue.

**Vehicle Extrication - FR179** (24 Hours NOTE: this course will begin on Friday evening at 6:00 pm) This course covers the complete cycle of vehicle rescue operations. Topics include utilization of equipment, personal safety, response, assessment hazard control, support operations, access and disentanglement, and special vehicles. Extensive hands-on practical exercises are utilized to allow students to perform in simulated environments. This course meets selective objectives of National Fire Protection Association (NFPA) 1001.

**Fire Chief Development - EO100** (16 Hours) This series provides the training required to meet the Assistant to the Commissioner training law passed in 2006. All Chief Officers from recognized Tennessee fire departments hired or elected after July 1, 2006 must complete 16 hours of training. The series includes a variety of subjects including legal, budgeting, human resources, safety, state requirements, TFIRS, water utilities, etc. This series of courses may be offered at the TFACA or in local jurisdictions.

**Leadership I - FF123** (16 Hours) This course is designed to provide the student with leadership skills of mid-level managers, especially fire company officers. Major topics covered in the course are decision-making, problem solving, brainstorming, meeting management, and understanding the relationship between resources and services provided by a fire company.
